### August Training Schedule

Title	Date/Time	Duration	Product
<a href="#">Cutout Maker 1800 Product Training</a>	August 1st, 2017 1:00pm CST	1 hour	Cutout Maker 1800
<a href="#">Perfecta 3600STP Product Training</a>	August 29th, 2017 1:30 pm CST	1 hour	Perfecta 3600

### The Truth About Teachers' "Summer Vacation"

### Notes from Margaret

We hope everyone is having a fun, safe summer! We are busy preparing for this year's NMCEL and ACE conferences, and finishing up equipment upgrades. We have Cutout Maker upgrades for Carlsbad, Artesia and Zuni available for immediate pick up, so if you'll be in Albuquerque this month, please plan to stop by our office. We've started our 2017-2018 schedule for equipment installations, updates, and preventive maintenance, and will be in the Gallup, Zuni, and Clayton areas this month. Don't wait for school to start! *Now* is the best time to schedule any service needs you may have!

Consider our **Performance Guarantee** to ensure that your equipment is in excellent working condition, and your staff is fully trained. Let us help you get up and running before the new school year starts.

We'll be seeing you soon at upcoming conferences!

Margaret

### Success Story

Cindy Gomez, administrative assistant of the Hondo Valley School district, was recently trained on the use of the district's 3D printer, the Trifecta. Student Bryan Masias (below) also received training. Then, Bryan designed and printed a ring for Ms. Gomez. When completed, the ring fit perfectly and even had her name "engraved" on it.

Ms. Gomez is in charge of the many VariQuest machines the district owns, as well as a binding system by Powis Parker. She noted that the faculty frequently use their Perfecta full color Poster design system and Cutout Maker to support their curriculum. The machines allow the faculty to save time for the many activities and duties they have. Plus, the Cutout Maker occupies less space than traditional template cutout makers, space that is at a premium in

"At least you have summers off!" "Three whole months off, must be nice."

Even if you're a brand new teacher, you've heard these comments over and over again. But the truth about teachers' summer vacation is a little different. First, it's rarely three months (most teachers we know are lucky to get two). And second, most educators invest a lot of that time back into their classrooms.

### Set Students up for Success

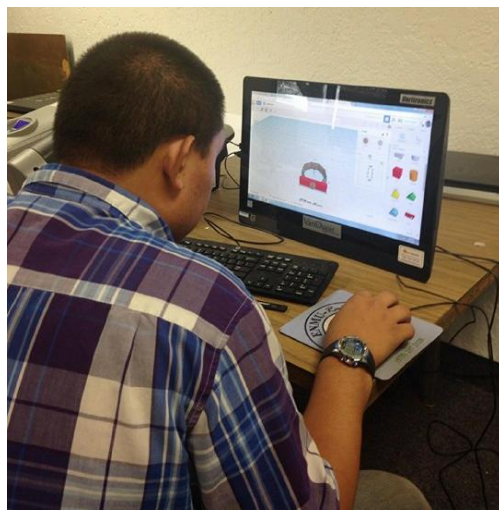

The resource you've been waiting for!

Apply real-world skills for your school by setting up a student-based enterprise. Supply the items that are in demand for students, staff, parents, and the community...all while raising funds for your school!

### Testimonials

"Yearbook is one of the clubs on campus I don't

any district.

Along with her many duties for the district, Ms. Gomez is the instructor for the Hondo Fiesta Folklorico Dance Group. She is excited about creating a poster advertising the annual Fiesta as well as using the Powis Parker binding machine to make a book of pictures that

she has collected from past Hondo Fiestas. She also plans to use the binding machine to create teacher handbooks, which she noted was a much faster and more permanent system than plastic ring binding.

*Hondo Fiesta Dancers, a ballet folklorico group*

Ms. Gomez expressed interest in using the printing and binding systems to create the Hondo Valley School District's yearbook. Many districts have found that they can create yearbooks faster, better, and much more affordable than using traditional methods. They aren't left with extra books they had to pay for but can print exactly the number of yearbooks that they need. And they end up with extra money for other projects.
